

INDIA REGION **NEWSLETTER**

QUARTERLY EDITION

Volume: 76 | Issue: 77

April - June 2025

Dear Member,

IPC is now the Global Electronics Association. The transition reflects the scale, diversity, and global relevance of today's electronics industry. The association is established in 1957 in the USA, representing all facets of the electronics manufacturing industry with members from over 70+ countries. Global Electronics Association was incorporated in India during 2010 as regional office & currently serves members in India, South Asia & Middle East Africa and is the leading source for industry standards, certification, skill training, global market report and providing networking platform for Indian, regional & global members.

Our mission remains focused on helping the electronics industry build Better Electronics for a Better World. We help SMEs, large & government organizations to achieve high-quality end product in the manufacturing process, maintain a competitive position and build capability in export market & supply chain.

As part of our ongoing commitment to support members in the region, "Events & Communication" Department of Global Electronics Association India Regional Office is constantly developing "Quarterly Edition" to share valuable information & knowledge. We request your feedback and inputs.

Thank you very much for your support.

GAURAB MAJUMDAR
Vice President
Southeast Asia, India & MEA

Skill Training & Certifications

Robotic Soldering and Automation

Laser Soldering

Laser soldering enables soldering processes that have been abandoned for automation

As electronic circuit boards become thinner and electrical components more multilayered, technology is evolving so rapidly that conventional methods are no longer applicable.

Laser soldering makes it possible to solder ultra-fine areas that are difficult to reach with conventional soldering irons.

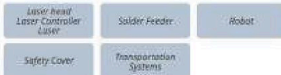

In-line specifications

Slider type off-line specifications

Integration

Our laser soldering system optimizes for a production line according to your requirements and provide comprehensive services from design to construction/adoption in compliance with international safety standards for lasers. Our expert engineers provides strong technical support (e.g., parameter settings) so that customers can save time and effort and focus on the comprehensive management of the production line. We can offer various ideas on the production line such as in-line, indexing, two slider, etc.

Past Events

April - June 2025

Colombo, Sri Lanka - Industry Networking & Technical Session on Wire Harness supported by **Sri Lanka Export Development Board (EDB) & Sri Lanka Electronic Manufacturers and Exporters Association (SLEMEA)**, was successfully held on **April 4**

Goa - Industry Networking & Technical Session on Electrostatic Discharge (ESD) supported by **Smartlink Holdings Limited**, was successfully held on **April 11**

Riyadh, Saudi Arabia - Hand Soldering Competition & Industry Networking Session supported by **Team Partner**, was successfully held on **April 30**

Baddi - Industry Networking Session on Electrostatic Discharge (ESD), Surface Mount Technology (SMT) & Conformal Coating, was held with strong industry participation and support from **Baddi Barotiwala Nalagarh Industries Association (BBNIA)** on **May 2**

Pune - Industry Networking Session on Electrostatic Discharge (ESD) & Surface Mount Technology (SMT) was held with the support of **MCCIA Electronic Cluster Foundation (MECF)** on **May 14**

Mumbai - Industry Networking Session on Electrostatic Discharge (ESD) & Surface Mount Technology (SMT) was held on **May 16**

Upcoming Events

Global Electronics Association

Industry Networking & Technical Sessions

Best Practices in Electronics Assembly & Wire Harness

Chennai, India

Supported By

Integrated Electronics Manufacturing & Interconnections

JULY 30, 2025
9:30 AM-5:00 PM

DEFENCE & AEROSPACE

2025

14th Strategic Electronics Summit

Supported By

Global Electronics Association™
