

INDIA REGION **NEWSLETTER**

QUARTERLY EDITION

Volume: 75 | Issue: 76

January - March 2025

Dear Member,

IPC India is part of IPC, the Global Trade Association established in 1957 at USA representing all facets of the electronics manufacturing industry as members from 70+ countries. IPC is incorporated in India during 2010 as regional office & currently serving members in India, South Asia & Middle East Africa and is the leading source for industry standards, certification, skill training, global market report and providing networking platform for Indian, regional & global members.

Our mission at IPC has been to help the electronics industry to Build Electronics Better. We help SMEs, large & government organizations to achieve high-quality end product in the manufacturing process, maintain a competitive position and build capability in export market & supply chain.

As part of our ongoing commitment to support members in the region, "Events & Communication" Department of IPC India Regional Office is constantly developing "Quarterly Edition" to share valuable information & knowledge. We request your feedback and inputs.

Thank you very much for your support.

GAURAB MAJUMDAR
Vice President
Southeast Asia, India & MEA

Robotic Soldering and Automation

UNIX JAPAN UNIX

UNIX-DF Series

The new generation desktop soldering robot for Industry 4.0 and IoT. UNIX-DF Series have improved its network function and robotic motion.

UNIX-GF Series

UNIX-GF series has evolved into a flexible gantry-type soldering platform. Ideal for introduction into production lines and for automated soldering to large boards.

Laser Soldering

Laser soldering makes it possible to solder ultra-fine areas that are difficult to reach with conventional soldering irons.

UNIX-FR Series

Equipped with servo motors. The pinnacle of soldering robots. The SOLDER MEISTER FR series, the highest-end model developed for automated soldering.

Workforce Funding for EMS Companies: Opportunities Amidst Uncertainty

The funding landscape for workforce development is evolving. While federal grant freezes and shifting policies have introduced some uncertainty, there are still viable opportunities available for companies in the electronics manufacturing services industry.
