

# SOUTH EAST ASIA & INDIA NEWSLETTER

» Jan – Mar 2026

## Dear member

The Global Electronics Association, established in 1957 in the USA, represents all facets of the electronics manufacturing industry with members from over **70 countries**, including India & Southeast Asia. Our mission is to advance the electronics sector by helping SMEs, large enterprises, and government organizations achieve high-quality products, remain competitive, and strengthen capabilities across global supply chains.

Building on this mission, we are closely supporting the rapidly evolving electronics landscape across India, Malaysia, Thailand, Vietnam and Philippines. The region is emerging as a hub of innovation and is driving significant investments and creating new opportunities for collaboration. To enable this growth, the Association focuses on industry standards, certification, skills training, and targeted education programs, while fostering partnerships with government and industry stakeholders.

Through this **Quarterly Newsletter**, we bring members the latest industry news, insights, upcoming events, sustainability initiatives, and training and certification programs. By keeping our community informed and connected, we aim to empower members to navigate a fast-changing market and contribute to a vibrant, forward-looking electronics ecosystem across the region.

We sincerely thank you for your continued support and look forward to working together to drive progress, excellence, and sustainable growth in the electronics industry.

**GAURAB MAJUMDAR**

*Vice President  
Southeast Asia*

## INDUSTRY & GOVERNMENT ENGAGEMENTS

The Federation of Malaysian Manufacturers (FMM) - Industry

Malaysia Convention & Exhibition Bureau (MyCEB) Government

Invest Selangor Berhad

Malaysian Investment Development Authority (MIDA)

HRD Corp - Human Resource Development Corporation

Jabatan Pembangunan Kemahiran (JPK)

Our Malaysia Team met with key industry stakeholders and government agencies to drive industry collaboration, standards implementation, and skills development initiatives within Malaysia's electronics sector.

## PAST EVENTS

We successfully organized a Technical Session in **Thailand** on **March 30**, which brought together industry professionals for knowledge sharing and discussion on **PCB design best practices and quality performance evaluation of printed circuit boards**.

The **Global Electronics Association** hosted its first-ever **IPC Standards Committee Meeting** in **Bangkok** on **March 30**, marking an important step in strengthening industry collaboration in the region. The meeting brought together 25 industry members who engaged in discussions on forming dedicated committees for PCB Manufacturing, EMS, and Wire Harness, creating a structured platform to advance standards adoption, technical alignment, and industry best practices.

## PAST EVENT

The **Global Electronics Association** proudly supports the **“Egypt Makes Electronics”** (EME) initiative, aiming to transform Egypt into a regional and global hub for advanced electronic design and manufacturing. Through our **Standards Endorsement Program**, we successfully conducted the **IPC-A-610J CIS Training & Certification at Arab International Optonics (AIO)**, Cairo, reinforcing workforce competency and quality standards in the electronics ecosystem.
